Description:

EMBLEM SOTBLFR2 is a flame-retardant cloth especially made for solvent based inks.

Associated with the satin-finishing this media allows high-quality prints with intensive colours and well-defined contrasts. SOTBLFR2 is suitable for in- and outdoor use.

The material is sewable and can be eyed. During the finishing you have to ensure that adequate tools are used. Furthermore it is necessary that eyes are placed in a distance which is proportionated to the expected wind load and own weight of the banner.

Typical Applications:

Banners at Fairground, Stagedecoration, Outdoor-Banners
