TS-4050P2ER  
40 x 50 cm format

TS-4050PER

4 platen kit

### TS-4050PER & TS-4050P2ER

The promashirt TS-4050PER and TS-4050P2ER are pneumatic heat-presses for garments and other flat supports within a 4050 cm format and a thickness up to 4 cm. Compared with a manual press, the pneumatic system – which requires a compressor - guarantee a homogenous pressure on the whole support and a effortless work either for unit printing of productions up to a 1000 pieces a day. The closing of the heating plate is driven with two push buttons.

### TS-4050P2ER - DOUBLE FIXED PLATES 40 X 50 CM FORMAT

The Promashirt TS-4050P2ER is a double station press allowing a production up to 240 pieces per hour with only one operator. While a tee-shirt is pressed, the operator prepares the next garment on the second plate and so on... The work is continuous.

The two fixed inferior plates are beneficial because it is the heating plate which moves easily from one to another. Thus, the visual does not move, the congestion and movement of the operator are limited compared to a double trolley station.

### «U» STAND

The U stand allows to put products on the below plate for double-sided transfer or on thick support such as polos with buttons, a shirt etc.... It also eases plate changes.

### 4 PLATEN KIT

Thanks to this 4 platen kit adaptable on all red PromaShirt, equipped with a "U" form stand, you can apply perfectly your logo on short and long sleeves, sport shorts, working clothes, luggages and umbrellas, etc. The 4 platen kit improves printing precision by avoiding the contact between the heat plate and the fragile zones of your supports: zips, snap buttons, double seams, elastics, straps, etc.

### PLATE FOR SHOES

This interchangeable below plate allows an easy customization of all kind of shoes. It is available as an option for all Red Promattex International teeshirt presses. It has a marking area of 5 x 10 cm which can be put at the side, the heel or the strip of the shoes.

	TS-4050PER	TS-4050P2ER
Opening	Parallel opening & front pull out + Lateral clearance	Double fixed plates
Power	1,95 kW	
Voltage	220 V	
Amperage	8,8 A	
Size (W x H x D)	43 x 52x 60 cm	42 x 90 x 75 cm
Weight	52 kg	105 kg
Digital temperature	0° - 250° C	
Automatic digital timer	Yes	
Air Consumption	2.5 to 4.3 L / cycle	
Guarantee	1 year guarantee return to workshop in its box
